VMARC Export Interface

Figure 2: VMARC Export Interface

VMARC Data Exports

Pre-Conditions   All the data for the period of exporting must be entered and finalised in Stockaid and FY3000 to ensure all data is captured and reconciled.

Frequency   VMARC data files should be sent on Tuesday and Friday. Please send these as soon as posible after the Pre-Conditions are met. If you fall behind schedule please continue sending VMARC data files as if you are still on schedule, Eg. If it is Thursday and you are yet to send the report intended to be sent on Tuesday, please send through the VMARC data files for the previous Friday to Tuesday period.

Table 1: When data should be sent

Day of Export	Start Date	End Date
Tuesday	Previous Friday	Monday
Friday	Previous Tuesday	Thursday
1st Jan 2021	29th Dec 2020	31st Dec 2020

Feedlot ID   Your allocated AHD Feedlot ID is 0022 and must be entered into the Feedlot ID field on the VMARC Export screen.

File Format   must be **CSV**.

Export   If you have any issue with exporting the VMARC data files please try exporting them **one** at a time by only ticking one of the boxes. If we notice issues with the exports we are receiving or if we are missing VMARC data files for some periods we may ask you to re-export data for older period, and sometimes in bulk. If we ask for large periods of data we advise generating the file for **one month** blocks.

Files to be exported:

- Induction Summary
- Health Summary
- Bunk Summary
- Bunk Summary BPP
- Exit Summary[1]
- Death Summary
- Lot to Lot Transfer Summary
- Non-Hospital Treatments
- Stock on Hand[2]

---

[1]Exit Summary should be exported for a 2 periods to make sure all data is entered and reconcilied in Stockaid and FY3000. If start date for the other VMARC data files was the 29th Dec 2020 then the start date for the Exit Summary VMARCdata file should be 24th Dec 2020

[2]The Stock on Hand export should be done seperately, but should be sent with the other VMARC data files.

Closeout Reports

Pre-Condition   Closeout reports should be exported only after entering the *Dressing Percentages* and checking the Closeouts for the previous month.

Frequency   Closeout reports are exported at the beginning of each month for the previous calendar month after the Pre-Condition is met.

Date Range

- Start Date should be the first day of the previous month
- End Date should be the last day of the previous month

If it is the first week of December, then the Closeout reports should be exported for the **1st Nov** to the **30th Nov**.

Feedlot ID   Your allocated AHD Feedlot ID is 0022 and must be entered into the Feedlot ID field on the VMARC Export screen.

File Format   must be **CSV**.

Export   To ensure the correct Closeout data files are exported please selected the following **three** files to export.

Files to be exported

- Closeout Movement Summary
- Closeout Performance Summary
- Closeout Charge History Summary

Pen Rider

Pre-Condition   Pen Rider export should be exported only after entering the pen rider data-entry is complete.

Frequency   Pen Rider file is exported at the beginning of each month for the previous calendar month after the Pre-Condition is met.

Date Range

- Start Date should be the first day of the previous month
- End Date should be the last day of the previous month

If it is the first week of December, then the Pen Rider export should be exported for the **1st Nov** to the **30th Nov**.

Feedlot ID   Your allocated AHD Feedlot ID is 0022 and must be entered into the Feedlot ID field on the VMARC Export screen.

File Format   must be **CSV**.

Export the Pen Rider file.

Send Files

1. Once the export is complete - close the VMARC Export Interface
2. Send an email to data@animalhealthdata.com.au with the Email Subject *0022 VMARCS 01/01/2020*
3. With the exported files attached
4. The attached must be following the naming rules below

The file names must be of the format with the angled brackets removed.

```
<Feedlot ID>_<Export Short Name>_<Export Datetime>.CSV
```

See the table below for more examples.

Table 2: Example file names in the required format

Export	Export Short Name	Required Name
Induction Summary	ind	0022_ind_202001011200.CSV
Health Summary	hea	0022_hea_202001011200.CSV
Bunk Summary	bun	0022_bun_202001011200.CSV
Bunk Summary BPP	bpp	0022_bpp_202001011200.CSV
Exit Summary	ext	0022_ext_202001011200.CSV
Death Summary	dth	0022_dth_202001011200.CSV
Lot to Lot Transfer Summary	ltl	0022_ltl_202001011200.CSV
Non-Hospital Treatments	trt	0022_trt_202001011200.CSV
Stock on Hand	soh	0022_soh_202001011200.CSV
Closeout Movement Summary	closem	0022_closem_202001011200.CSV
Closeout Performance Summary	closep	0022_closep_202001011200.CSV
Closeout Charge History Summary	closechm	0022_closechm_202001011200.CSV
